

Edinb.

27 My dear Bro. & Sister in the Lord:

Your note is to hand & most welcome - When I get at my books I will answer your query about $\square \dot{\lambda} \psi \dot{\lambda}$ cum auctoritate. The E. Translation considers it as a compound of $\dot{\lambda}$ in; ψ for $\dot{\lambda} \psi \dot{\lambda}$ which; & $\square \dot{\lambda}$ also - & gives it as "in that also" - I have no other translation by me here - but I suppose de Wette & make it to be $\dot{\lambda}$ by reason of = lat. in, $\dot{\lambda} \psi$ sin; & $\square$ then. I am only here to my thoughts passing by. I wrote a few lines lately to be ready to send to you & now I enclose an order for £18 from Dan - none of it from myself.

I have not yet seen my last cheque to you (18.10.0) but suppose it will turn up shortly. The consolidated Bank in the recent panic left its shutters down for 14 days - but the bill will be honoured by me when it comes to me - as I am, Woods & have done they that will be rich. It is a word that has its illustration now always far & wide - and in the commercial world in London &

had fearful exhibition - One house stopping for 18 millions - 3 as to
another &c. Well, we are wayfaring people & shall soon be out
of the bottle. Buchanan a very competent man takes the School
of Ryde D.V. He was a soldier & has been in Guernsey - Fisher an
ex R. Catholic was talked of, but not applied to, as he had said he had
and aside his secular employment for a bakery.

W.W.T. is still at Ryde - at Keppel there are 30, or more, healthy
bread in a school room - but we get neither Midland nor Dodd - but
most of the rest have got back - a good many conversations & much
freshness - so I have for I have not yet visited them - wishing to leave
to God himself to settle things & willing to trust him.

Our united kind love to Wife & babies

14.6.66

Ever yours aff. G.V.W.
