My dear Child: As I have
a minimum of money by me
for helping I sent, in the dad
name, ^{May 1st} \$100 to you.

Money is not abundant,
just now, for good workers,
the fact is so many of the
Lord's children, in business,
& out of business, have been
caught in the recent money
and panic crises that
those who used to give &
give liberally, cannot now
do what they would in their
youth.

I may put in, to make up
weight, a fragment returned
to me by the printer. I
have been at the present
testimony again; pre-
paring another post.

We have been tried, here.
Mr Dorman has with-
drawn from the table & Mr
Hall, I am told, talks
of doing the same. - The
plea: false doctrine being
tolerated. But those of us
who have examined, to
the best of our powers, be-
fore the Lord, the statements

objected to, judge that the statements are not unsound.

The party accused is I.N.D.
of holding & teaching NO
Newton's doctrine!! It is
nothing new, for I had the
battle to fight ^{3 yrs ago} at ~~London~~
where the Lord has judged
the accuser. The charge, divested
of all its offputting, is really
I. Pigeon, & nothing more. & I
think but for Satan could not
catch an ~~unwary~~ ^{unwary} mind that had
a babes intelligence to hold it
for a moment. Antagonistic-
ally opposed the one to the other
are the two statements of I.N.D.
& N.W. I.N.D. being contra-

dictory in principles & practices
of the Kalmuckians of the other. But
the truth has come & may the Lord
lead thee how to walk in the
furnace to his praise & honour

W. W. T. came here with
wife today; so that I suppose
we shall get a talk about
Jamaica & quickly.

The power of the world &
circumstances is great now
in Europe - and if the sheep
& lambs get not near to the
Shepherd I fear both serpent
& wolfy for them.

Dr McKenna was to be back on
last Saturday.

Most affectionately love to
wife & kids to Baby. I posted
your letters C. P. W.
